

Dashboard configuration

Description

This application allows users to configure the content shown on the **SaltOS4 dashboard**. It is not a traditional app with records, but a visual, user-focused interface for customizing quick access buttons, sections, and widgets that appear on the home dashboard.

Each user can have their own personalized dashboard, and this tool is its visual editor.

Configuration view

The screenshot shows the 'Dashboard widgets configuration app' interface. It features a blue header with the SaltOS logo and navigation links. The main area is divided into two columns. The left column contains two sections: 'CRM' (Customer Relationship Management) and 'Sales' (Sales & Billing Management). Each section has a grid of buttons for various features. The right column is currently empty, showing a dashed box for a widget. Below the CRM section, there is a table of customer data and a line chart showing 'Total invoiced per day'.

Customer	Date	Total	Closed	Paid
Walker, Foster and Medina	2025-04-01	16687.6	×	×
Hayes-Parks	2025-04-08	12886.5	✓	✓
Alexander-Durham	2025-04-20	5483.32	×	×
Mccoy-Rhodes	2025-04-19	9399.21	✓	×
Thompson, James and Torres	2025-03-31	1662.86	✓	×
Ramos Inc	2025-04-18	3492.23	✓	×

The screen displays a canvas-style layout where dashboard elements can be added, arranged, and grouped visually.

Available elements include:

- **Buttons:** Quick access links to apps or features.
- **Separators:** Visual lines or spaces to structure the layout.
- **Titles:** Headers to organize sections of the dashboard.
- **Widgets:** Dynamic components such as calendar, email, charts, stats, etc.

Elements can be grouped, reordered via drag and drop, and arranged into multiple blocks or columns.

Features

- Add or remove dashboard elements
- Reorder using drag and drop

- Edit section titles and labels
- Choose which widgets to display
- Organize layout in multiple columns or groups

Changes are saved automatically and apply only to the active user's dashboard.

Advanced usage

This module is ideal for:

- Creating role-specific dashboards (e.g., sales, tech, admin)
- Displaying only frequently used tools and information
- Improving clarity and efficiency on the SaltOS4 start screen
