

Customer Types

Description

The Customer Types application allows you to define categories or segments for classifying customers. These types are used in the Customers module to group and organize clients according to their profile, purpose, or treatment. Examples may include "Individual", "Company", "VIP", or "Distributor".

The form includes the following fields:

- Active: Enables or disables the type for use in the Customers app.
- Name: Title of the customer type.
- Description: Optional note describing how or when to use this type.

Delete

Customer types can be deleted only if they are not assigned to any customer.

If in use, they should be deactivated instead to preserve consistency.
