

# Emails

## Description

The Emails application is used to receive, view, and reply to emails from configured accounts within SaltOS4. It acts as a simplified integrated email client that supports reading messages from POP3 or IMAP, viewing metadata and content, and replying using internal or external SMTP servers.

Each message is presented as a visual card in the list view, showing key fields such as sender, subject, date, and a preview of the body. Emails can be viewed in detail, replied to, or deleted. This app is closely integrated with the Emails Accounts module and is essential for managing inbound communication.

## List view

The list view shows incoming emails as clickable buttons or cards. Each entry typically displays:

- From / To: Depending on whether the message was received or sent.
- Subject: The subject line of the email.
- Snippet: A short preview of the body content.
- Datetime: When the message was received or sent.
- Attachments: An indicator showing if files are attached.

The interface also includes filters and a search form to filter by sender, subject, account, and date.

## View message

This view shows the full content of an email message, including header metadata and attachments.

The following information is typically displayed:

- From: Sender's email address.
- To / CC / BCC: Recipients of the message.
- Subject: The subject line.
- Datetime: The exact timestamp of the message.
- UIDL: Internal identifier from the mail server.
- Body: Full content of the message.
- Attachments: List of downloadable files.

## Reply / Compose

Users can reply to an existing message or compose a new email using a simplified form.

The screenshot displays the SaltOS email client interface. On the left, a list of emails is shown with columns for sender, date, and status. The selected email is from 'alice@example.com' dated '02/01/24' with the subject 'Catching Up'. The right pane shows the details of this email, including the 'From' field (Admin user <admin@example.com>), 'To' field, 'CC' field, 'BCC' field, 'Subject' field, and the message body. The message body contains a rich text editor with various formatting options (bold, italic, underline, etc.) and a text area where the email content is displayed. At the bottom, there is an 'Attachments' section with a 'Choose Files' button and a 'No file chosen' message. A 'Send' button is visible at the bottom right of the email details pane.

The reply form includes:

- From: Email account used to send the message.
- To: Main recipient(s) of the email.
- CC / BCC: Optional carbon/blind copies.
- Subject: Subject of the message (pre-filled when replying).
- Body: Message content (rich text or plain).
- Attachments: Optional files to attach.

## Delete

Emails can be deleted from the list view using the delete icon or action.

Messages are usually deleted locally or flagged for deletion, depending on the server configuration.
