

Purchase Status

Description

The Purchase Status application defines the stages a purchase record can go through. It allows categorizing purchases according to their state, such as "Draft", "Ordered", "Received", or "Cancelled".

These statuses help in tracking the progress of procurement processes and improve clarity in the Purchase module.

The form includes the following fields:

- Active: Controls availability in the status dropdown.
- Name: Status label as it appears in the purchase form.
- Description: Internal notes about its use case.

Delete

Statuses can only be deleted if no purchases are currently using them.

In most cases, deactivation is preferred.
