

Payment Methods

Description

The Payment Methods application is used to define and manage the types of payments accepted by the organization. These methods are later used in invoices to indicate how the customer will pay (e.g., bank transfer, credit card, cash). This module ensures consistency and traceability across the billing process.

List view

Name	Description	Active	Default
Other	Other form of payment not listed above.	✓	✗
Gift Card	Payment using a store-issued gift card.	✓	✗
Prepaid	Payment made using prepaid balance or voucher.	✓	✗
Direct Debit	Payment directly withdrawn from a bank account.	✓	✗
Cryptocurrency	Payment made using Bitcoin or other cryptocurrencies.	✓	✗
Mobile Payment	Payment made using a mobile wallet or app.	✓	✗
Cheque	Payment made using a paper cheque.	✓	✗
PayPal	Payment made using a PayPal account.	✓	✗
Bank Transfer	Payment made via wire transfer or electronic banking.	✓	✓
Debit Card	Payment made using a debit card linked to a bank account.	✓	✗
Credit Card	Payment made using a credit card.	✓	✗
Cash	Payment made in physical currency.	✓	✗

The following fields are displayed in the list view:

- Name: Name of the payment method (e.g., Cash, Bank Transfer, Credit Card).
- Description: Additional details or clarification about how the payment method is used.
- Active: Indicates whether this payment method is currently available.
- Default: Specifies if this is the default payment method when creating new records.

Form view

This view is used to create, view or edit payment method records.

In **create** mode, a new payment method is added.

The form includes the following fields:

- **Active:** Indicates whether this payment method is currently available.
- **Default:** Specifies if this is the default payment method when creating new records.
- **Name:** Name of the payment method (e.g., Cash, Bank Transfer, Credit Card).
- **Description:** Additional details or clarification about how the payment method is used.

Delete

Payment methods can be deleted if not used in invoices.

If already referenced, they should be marked as inactive instead of deleted.
