

Supplier Types

Description

The Supplier Types application is used to classify suppliers by category, industry, or relationship. This classification helps filter and organize suppliers, and may be used for segmentation or reporting purposes.

Examples of types include "Distributor", "Manufacturer", "Service Provider", etc.

List view

Name	Description	Active

Name: Other

Description: Unspecified type of supplier

Save Cancel

The form includes the following fields:

- Active: Enables or disables the type for selection.
- Name: Descriptive label for the type.
- Description: Additional information or context.

Delete

Supplier types can only be deleted if not currently assigned to any supplier.

If in use, they should be disabled instead of removed.
