

# Workorders

## Description

The Workorders application is used to register, plan, and track work tasks or service jobs requested by customers. Each work order includes information about the requester, the service required, status, dates, assigned staff, and associated notes or attachments. This module is essential for managing operational activities, such as technical support, installations, or field services.

New note

The form includes the following fields:

- **Date:** The date when the work order was created or scheduled.
- **Worker:** The employee or technician assigned to carry out the task.
- **Client:** The customer who requested the service or task.
- **Description:** Details about the nature or objective of the work to be done.
- **Hours:** Estimated or actual number of hours allocated to the task.
- **Price:** Hourly rate or fixed price agreed for the work.
- **Total:** Final amount calculated based on price and hours.
- **Invoice:** Invoice number or reference associated with the completed work.

## Delete

Workorders can be deleted only if they are not linked to completed services or logged actions.

A confirmation prompt is displayed before deletion. Deactivation is preferred if you want to retain history without exposing the record.

PDF generation

From the individual view of a record (view), the user can generate and download a PDF containing all relevant data of that entry.

From the list view (list), it is possible to select multiple records using the checkboxes and generate a single PDF that includes all of them.
